ABOUT GUILLAUME CORNET

Guillaume Cornet is a French artist and illustrator working in London. His meticulously detailed compositions explore notions of abstract geometry, influenced by surreal perspectives and architecture. A graduate of Camberwell College of Arts, Guillaume's artwork has been exhibited internationally and he has worked on projects for the BBC, Pentagram, Nike and many more.

Guillaume's work is filled with intricate characters, creating a playful and whimsical visual language. His latest children's book *Elephants on Tour*, brings together 16 cities teeming with humorous scenes of everyday life and bizarre situations.

"As an Illustrator, I have always worked with Characters/Creatures to communicate my inner thoughts, ideas, emotions, and situations. At some point I wanted to create an environment for my creatures to grow, a place where I could let my imagination conquer the entire paper.

I decided to push my limits by combining large format illustration with extreme detail and precision, uniting the things in life that inspire me the most: Places + People.

Most of the Cityscape and Favela series are inspired by densely populated areas from cities which I have visited or lived in: South America, Paris, London, and Barcelona. The Characters are based on people and situations I come across in my daily life, along with unusual sounds, objects, misunderstandings, and the world which revolves around me."
